Can you send a clean file around before you send to the Ed & Mike? Thanks.

Thanks all for the quick and thorough reviews this morning. I am going through and cleaning up the slides now.

There was a question about "If there are few [uses] for which there are not alternatives, can we list those?" – I think we may have to ping this to BEAD for confirmation. Let me know if we should consider that.

We are down to 5 slides and I am making one more edit on slide 4. After that, these should be ready to go to the Ed and Mike by 11.

Thanks Trish. Just a note that I heard on our PMRA call late Tuesday that PMRA is supposed to issue a 1-page update on chlorpyrifos today announcing that chlorpyrifos will be on a 3yr phase out due to outstanding DCI data. We should keep an eye of for this update and include in the background slide 2.

Hi All,

I'll take a look at our last briefings and put something together. Let me know if we should chat briefly tomorrow and if we should loop in BEAD, EFED, RD, and/or OCHP for awareness. I'll try to remove Melissa on future emails since she is on detail now.

Thank you,
Trish

So to clarify, we are using the bullets from below and ask OGC if we have the 60-day date to put into slides for the administrator meeting next week. And you need the slides by 2pm tomorrow.

Michal would like 3-5 slides max for the Administrator meeting she has on Thursday.
History/Timeline/Upcoming decision. Can the team pull from some of the existing slides and existing language we used for Michal's confirmation hearing?
